Bolt-action

RIMFIRE RIFLE B26

„Classic“

technical specification:

- repeating small-bore rifle with a rotating bolt-action slide
- locking the bolt mechanism with a lever into the receiver
- short firing pin travel
- clamping system with precise, repeatable positioning
- the muzzle is threaded for connecting a silencer/compensator.
- fully adjustable trigger mechanism without removing the stock through a groove in the trigger guard
- trigger settings: trigger weight / trigger dead travel / trigger drop / trigger length / trigger position (sliding trigger)
- all-steel design of the receiver and bolt system

Weight:	2800g*	Caliber:	.22 LR / .22 WMR
